

CONNECTION BOX MEL.0137.99

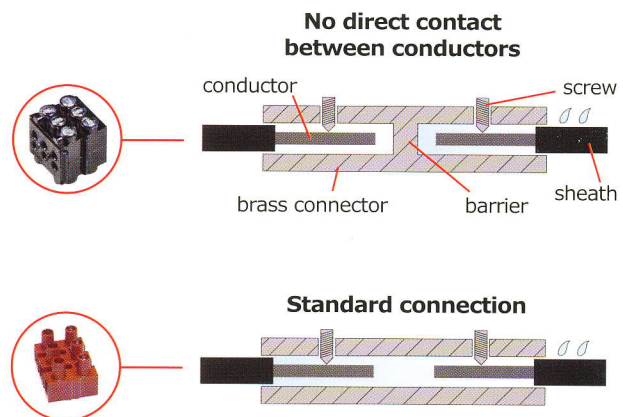

The **connection box MEL.0137.99** has been designed by Aldabra to ensure a proper electrical connection between the installation and the product with a degree of protection up to IP68.

MEL.0137.99 allows connections from 2 to 6 separate wires with maximum dimension of 0.75 mm² up to 1.5 mm².

The internal terminal block guarantees the correct electrical contact, but excludes a direct passage of water between the copper capillaries.

The extremely small size allows its application in most of the housing boxes produced by Aldabra.

EXAMPLES OF FULL WATERPROOF PROTECTION WITH COMBINED EFFECT OF MEL.0137.99 AND AQASTOP FLEX
